

## Energy Horizons

Where India discusses the global energy transition

18-19 July 2019

Hotel Hyatt Regency, Bhikaiji Cama Place, Ring Road, New Delhi

### Agenda

#### Day 1

- 1130 - 1200 **Registration**
- 1200 - 1300 **Masterclass** | Rooftop solar market in India: Creating value for distribution companies - Part I  
*This session will introduce a tool to assess the value of grid-connected rooftop solar for distribution companies*
- 1200 - 1300 **Masterclass** | Renewables for SDGs: Jobs, gender, and sustainable production and consumption  
*This session will highlight the socioeconomic benefits of renewable energy with a primary focus on employment generation opportunities and impact on local communities*
- 1300 - 1400 **Lunch**
- 1345 - 1500 **Masterclass** | Rooftop solar market in India: Creating value for distribution companies - Part II  
*This session will introduce a rooftop solar decision-making tool that can help distribution companies identify the optimum business design for their license area*
- 1400 - 1500 **Masterclass** | Two fuels in an economy: Energy and finance  
*This session will focus on bridging the gap between the finance and energy communities in order to decrease the perception of risks in clean energy markets*
- 1500 - 1530 **Break**
- 1530 - 1545 **Ministerial address**
- 1545 - 1745 **Plenary** | Electricity systems of the future in the economies of the future  
*This panel will discuss the future of the power system and over-the-horizon solutions to create a cleaner and smarter grid in emerging economies, discussing technological progress and the role of policy making*
- 1745 - 1900 **EH debate** | The energy transition will make billions of millionaires  
*The motion being debated will be "This house believes that the energy transition will create billions of millionaires," deliberating on the huge investment opportunity posed by the energy transition*
- 1900 onwards **Reception**

**Day 2**

- 0930 - 1000     **Registration**
- 1000 - 1030     **Ministerial session**
- 1030 - 1200     **Plenary | Mapping the transition**  
*This panel will discuss the need for transparency and coherence in accelerating the energy transition. Launch of the CEEW Centre for Energy Finance*
- 1200 – 1300     **Solutions factory | Circumventing the challenge of grid integration**  
*This session will deliberate on legal and financial solutions to the risk posed by the integration of variable renewable energy into the grid*
- 1200 – 1300     **Solutions factory | Financing the consumer-led energy transition**  
*This session will deliberate on business and financing models designed to address the challenge of financing for end consumers in emerging economies*
- 1300 - 1400     **Lunch**
- 1400 - 1530     **Plenary | New X-factors: Rooftop solar and electric mobility**  
*This panel will discuss the market drivers, opportunities, and barriers to advancing the rooftop and mobility transitions. The discussion will focus on the different regulatory and policy levers that can be used to accelerate this scale up in emerging economies*
- 1530 - 1615     **Break**
- 1615 - 1730     **Solutions factory | Speed dating on clean energy innovation**  
*This session will be structured like an investor pitch, showcasing three early-stage innovations that are yet to reach market scale. A panel of potential funders will do an open evaluation.*
- 1615 - 1730     **Solutions factory | Leveraging the bond market to accelerate the energy transition**  
*This session will focus on the role of the domestic and international bond market to enhance liquidity in the clean energy markets*
- 1745 - 1900     **Townhall | Making the energy transition a poll topic**  
*The session will have elected representatives from Indian states discussing the energy transition*
- 1900             **Closing address**
