

Shikha Bhasin is Senior Programme Lead in the Technology, Finance and Trade team at The Council. A co-author of the India Cooling Action Plan (ICAP), she continues to represent CEEW as a member of ICAP working groups to implement its R&D and servicing sector goals. Her research focusses on enhancing access to sustainable cooling in India, as well supporting the technology and market transitions required to meet India's Kigali Amendment commitments. Shikha also leads research on climate negotiations, with a particular focus on aspects of the Paris Agreement rulebook, and national ambitions set out under the aegis of the United Nations Framework Convention on Climate Change (UNFCCC).

A graduate of Delhi University and the London School of Economics and Politics, Shikha has worked extensively on policy-focused international technology cooperation research projects on climate change for over seven years with the German Development Institute (Bonn), the Energy Research Centre of the Netherlands (Amsterdam), and Radboud University (Nijmegen). Her research lies at the interface of policy and academia, and has been used to ascertain strategies in various governments, international organisations, and philanthropies. Shikha has served as an Advisory Board member to the Climate Technology Centre and Network (CTCN) instituted by the UNFCCC, and contributed to the inception and working of the UNFCCC's Technology Mechanism.
