

Sachin Sharma is a Programme Associate with the Council on Energy, Environment and Water (CEEW). His research interests include the power sector, energy efficiency, energy conservation, demand-side management, and climate change mitigation.

Prior to joining The Council, Sachin worked with Energy Efficiency Services Limited (EESL) in Mumbai as a Demand-Side Management Consultant for MSEDCL, Maharashtra. His work focused on the analysis of load patterns of the DISCOM, and devising policies for the effective management of electrical demand across the state. Sachin has worked on flagship initiatives of the Government of India, including UJALA and the Street Lighting National Program. He has also worked on the SIDBI MSME Energy Efficiency Enhancement Project funded by the World Bank and the Global Environment Facility (GEF), and carried out energy audits for various MSMEs and consumers such as Tata Steel Limited.

He is an energy engineer and holds an M.Tech in Energy Systems from the University of Petroleum and Energy Studies, Dehradun, and an undergraduate degree in Mechanical Engineering from the University of Mumbai. He is an avid reader, plays cricket, follows tennis and soccer, and loves to explore new places.
